

# PF/PFL SERIES PALLET FORKS

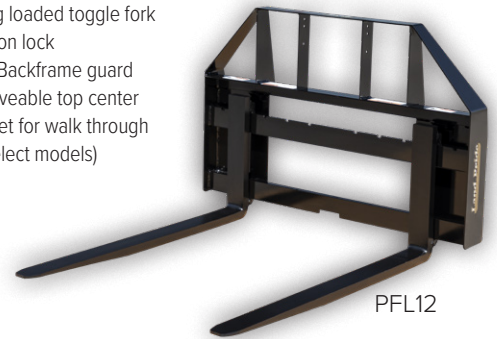

MATERIAL HANDLING

## Expand your material handling capabilities.

The PF Series bucket-mounted Pallet Forks transforms your tractor loader bucket into a forklift. PFL and PFLE Series Pallet Forks are great for retail operations, nurseries, and farms; the heavy-duty PFL64 Series is at home on construction and industrial sites. The PFL models mount to the front loader plate of your tractor and PFLE Models mount to your Euro Hitch, effectively changing your loader into a forklift and increasing your material handling capabilities. With capacities from 1,200 lbs to 6,400 lbs, you will quickly find these attachments save you time and labor!

- Spring loaded toggle fork position lock
- 3/16" Backframe guard
- Removeable top center bracket for walk through (on select models)
